

CE Computer Engineering

UCSB

Junior Meeting 2023-2024
WELCOME!

Senior Elective Requirements

- ✓ 12 Courses and 48 units minimum
- ✓ Capstone Project (CS version or ECE version)
- ✓ 2 Dept Approved Sequences
 - Cannot “double dip”
 - CMPSC 176A and CMPSC 171 or CMPSC 176A and CMPSC 176B, cannot use a course twice.
- ✓ 6 Approved Elective Courses of your choosing

Approval Process

- Discuss your senior elective plans with your faculty advisor and get course recommendations.
- Faculty Advisor must sign and approve your senior elective plans
- Email the signed form to ECE Student Office for final approval

Elective Sheets are Contracts

- You **MUST** complete the required number of courses.
- You do not have to list **ALL** electives you plan to take, just the required minimum.
- You are responsible for knowing the prerequisites of the courses.
- Run a progress report, don't forget to include completed & in progress electives.
- **PLAN CAREFULLY!!**

Last Name	Faculty Advisor	Faculty Email
A – C	https://www.ce.ucsb.edu/undergrad/current	
D – F	To be updated soon	
G – H

CE SENIOR ELECTIVE FORM

Computer Engineering CE Senior Electives 2016-2017 & Later

Computer Engineering Program · UC Santa Barbara

LAST NAME, FIRST NAME _____

Perm # _____

UCSB EMAIL _____

PHONE # _____

STUDENTS ARE RESPONSIBLE FOR DETERMINING AND TAKING THE NECESSARY PREREQUISITES FOR THE CLASSES LISTED BELOW AS THEY DO CHANGE. FOR THE MOST UP-TO-DATE INFORMATION, CHECK WITH THE COMPUTER SCIENCE STUDENT OFFICE FOR CS COURSES AND THE ECE STUDENT OFFICE FOR ECE COURSES.

COURSE – Include all completed electives	UNITS
“Capstone” Project (ECE189A/B/C or CS 189A/B)	
Sequence 1 (2 courses min.)	
Sequence 2 (2 courses min.)	
Other Electives	
MIN. REQUIRED	48
TOTAL UNITS:	

Total Units: A minimum total of at least twelve courses (48 units) including two sequences plus a Capstone Project. Include all completed CE senior electives.

Student's Signature _____

Date _____

Faculty Advisor's Signature _____

Date _____

ECE Student Office _____

Date _____

Check Here	Sequence Topics	Senior Elective Sequences (choose 2)
	Computer Networks	<ul style="list-style-type: none"> - CMPSC 176A (Intro to Comp Communication Networks) AND - CMPSC 176B (Network Computing)
	Computer Systems Design	<ul style="list-style-type: none"> - ECE 153A OR CMPSC 153A (Hardware/Software Interface) AND - ECE 153B (Sensor and Peripheral Interface Design)
	Distributed Systems	<ul style="list-style-type: none"> - CMPSC 171: Distributed Systems AND ONE OR BOTH OF THE FOLLOWING COURSES: - CMPSC 176A: Intro. to Computer Networks - CMPSC 176B: Network Computing
	Multimedia	<p>Choose TWO OR MORE of the following courses:</p> <ul style="list-style-type: none"> - ECE 178 (Fundamentals of Computer Image Processing) - ECE 181 OR CMPSC 181 (Introduction to Computer Vision) - ECE 160 (Multimedia Computing)
	Programming Languages	<ul style="list-style-type: none"> - *CMPSC 160 (Translation of Programming Languages) - *CMPSC 162 (Programming Languages) <p>(*Note: CMPSC 138, a Junior year course, is the prerequisite for both CMPSC 160 & 162)</p>
	Real-Time Computing & Control	<ul style="list-style-type: none"> - *ECE 147A (Feedback Control Systems - Theory and Design, 5 units) (*Note: ECE 147A prerequisite is ECE 130AB – Junior year) - ECE 147B (Digital Control Systems - Theory and Design, 5 units)
	Very Large Scale Integration (VLSI)	<ul style="list-style-type: none"> - ECE 122A (VLSI Principles) OR ECE 123 (High-Performance Digital Circuit Design) - ECE 122B (VLSI Architecture and Design)

	Systems Software Architecture	<ul style="list-style-type: none"> - CMPSC 170 (Operating Systems) - CMPSC 171 (Distributed Systems)

Required Senior "Capstone" Computer Systems Project

12 Units	*ECE 189A/B/C (3 qtr. course, 4 units/qtr., 12 units) (*Note: ECE 153B, Sensor & Peripheral Interface Design, is a prerequisite for ECE 189A/B/C)	OR	*CMPSC 189A/B (2 qtr. course, 4 units/qtr., 8 units) (*Note: CMPSC 156, Advanced Applications Programming, is a prerequisite course CMPSC 189A/B)	8 Units
----------	--	-----------	--	---------

Acceptable Additional Courses

CMPSC 130B (Data Structures and Algorithms II)	4	ECE 130C (Signal Analysis and Processing)	4
CMPSC 138 (Automata and Formal Languages)	4	ECE 147A (Feedback Control Sys-Theory & Design)	5
CMPSC 160 (Translation of Programming Languages)	4	ECE 147B (Digital Control-Theory & Design)	5
CMPSC 162 (Programming Languages)	4	ECE 149 (Game Theory)	4
CMPSC 165A (Artificial Intelligence)	4	ECE 150 (Mobile Embedded Systems)	4
CMPSC 165B (Machine Learning)	4	ECE 153A/CMPSC 153A (Hardware/Software Interface)	4
CMPSC 170 (Operating Systems)	4	ECE 153B (Sensor and Peripheral Interface Design)	4
CMPSC 171 (Distributed Systems)	4	ECE 154B (Advanced Computer Architecture)	4
CMPSC 174A (Fundamentals of Database Systems)	4	ECE 157A (Machine Learning in Design & Test Automation)	4
CMPSC 176A (Intro to Comp Communication Networks)	4	ECE 157B (A.I. in Design & Test Automation)	4
CMPSC 176B (Network Computing)	4	ECE 160 (Multimedia Computing)	4
CMPSC 176C (Advanced Topics in Internet Computing)	4	ECE 178 (Fund. of Computer Image Processing)	4
CMPSC 177 (Computer Security)	4	ECE 179D (Intro to Robotics: Dynamics & Control)	4
CMPSC 178 (Introduction to Cryptography)	4	ECE 179P (Intro to Robotics: Planning & Kinematics)	4
ECE 122A (VLSI Principles)	4	ECE 180 (Introduction to Deep Learning)	4
ECE 122B (VLSI Architecture and Design)	4	ECE 181/CMPSC 181 (Introduction to Computer Vision)	4
ECE 123 (High-Performance Digital Circuit Design)	4	ECE 194AA-194ZZ (except ECE 194R) (Special Topics in ECE)	4
ECE 130A (Signal Analysis and Processing)	4		
ECE 130B (Signal Analysis and Processing)	4	CMPSC 156 (Advanced Applications Programming)	4

Capstone Prerequisite Courses

– Important, Take Note!

If you are interested in CS189, complete **both** capstone prerequisites. Why? CS189 has a limited number of spaces. Without **both** prerequisites completed an additional year could be required to graduate if only CS 156 is completed and you are unable to obtain a spot in CS 189.

➤ ECE 189A- CE Capstone prerequisite: **ECE 153B** (Sensor & Peripheral Interface Design) – **Winter 2024 or Spring 2024** (prereq. is ECE 152A w/min. grade of C-). Enroll Pass 1 or Pass 2 for W24

➤ CS 189A - CS Capstone prerequisite: **CS 156** (Advanced Applications Programming) – (prereqs. – CS 24 & CS 32 with grade of C or better)

CE Senior Elective Summary

- Capstone Project:
ECE 189ABC,
12 units;
 - or*
 - CS 189AB, 8 units
-

- 12 courses
- 48 units
- Capstone
- Two (2) sequences
- 5-6 single electives

Important
FORMS

- Include your completed electives!
Run quarterly progress report

Elective Scheduling Computer Science Courses

UC SANTA BARBARA
Computer Science

About Research **Education** Diversity Equity & Inclusion People Happenings Give Open Positions

Overview Special Topics and Seminars Course Schedules Course Descriptions Graduate Courses

Overview

The Computer Science Department offers courses at three levels:

Lower division courses (numbered 1-99) are typically taken primarily by freshman and sophomores and introduce students to the fundamental building blocks of the discipline.

Upper division courses (numbered 100-199) are more advanced courses that venture deeper into a wide range of topics in computer science.

Graduate level courses (numbered 200-599) cover advanced material and are not generally open to undergraduates.

All CS courses (both undergrad and graduate) require CS major status to enroll. A subset of courses is open to non-majors that require CS courses as listed on their undergrad or graduate major requirements degree sheet. Otherwise, non-majors may request to enroll CS courses during Pass 3 if all students whose major requires the course have registered, there is course space available, **and** students meet the listed course prerequisites. However, due to the high interest in CS at UCSB, enrollment demand for CS courses will likely exceed actual enrollment capacity limits in many courses each quarter.

CS courses also have prerequisite course-requirements that must be completed prior to (and in some cases concurrently with, if specified) enrolling in a course. The prerequisite rules are specified within the course descriptions.

CS178			Gupta, Trinabh	
CS180		Yan, Lingqi		
CS181		B.S. Manjunath (ECE)		
CS182				

DUE DATES

- Elective Sheets are due *no later than Friday, June 14, 2024!*
- Students who have not turned in an elective sheet will be placed on a **REGISTRATION BLOCK!**

Progress Checks

- Can be run on GOLD using the degree audit system.
- GE/College level questions refer to the College of Engineering advisors, coe-info@engineering.ucsb.edu, or:
 - Frances Fouch francesf@engineering.ucsb.edu
 - Shariq Hashmi shashmi@engineering.ucsb.edu
 - Sarah Ocampo socampo@engineering.ucsb.edu
- Major level questions refer to the ECE Student Office to **our inquiry form**

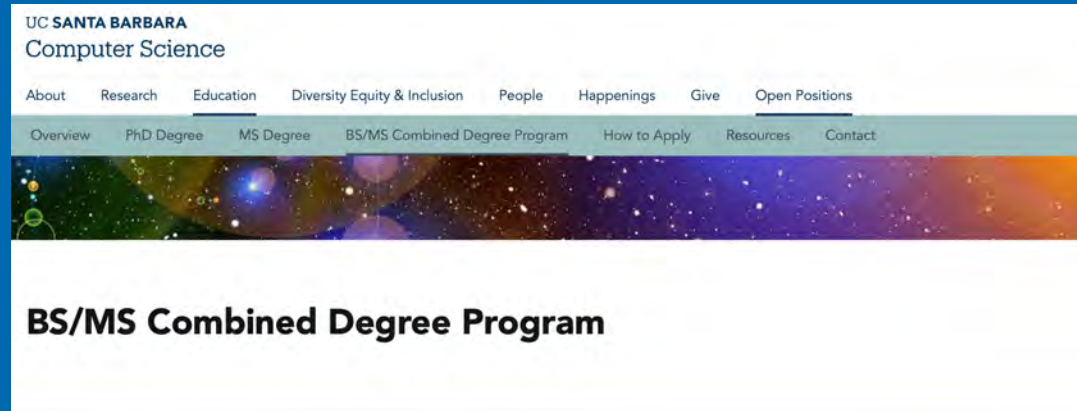

BS/MS Programs

BS/MS options available for Computer Engineering undergraduates:

- BS in CE and MS in ECE.
 - Go to: <https://www.ece.ucsb.edu/grad/bs-ms>
- For Fall 2024 admission, the application deadline is June 14, 2024.
 - Applications for the BS/MS in ECE are due at the end of the spring quarter of the junior year. As this is an accelerated program, it is expected that all of the required courses for the CE major are completed including all of the junior required courses. GRE exams are not required to apply.
 - Contact the Graduate Admissions Coordinator for questions about applying to the BS/MS program:
grad-admit@ece.ucsb.edu

BS/MS Programs

- BS in CE and MS in Computer Science: see the Computer Science website:

<https://cs.ucsb.edu/education/graduate/bs-ms>

A combined BS/MS Program in Computer Science provides an opportunity for outstanding CS, CE or CCS Computing undergraduates to earn both degrees in as little as five years. Interested students should make their interest known to the department early in their 3rd year (typically their junior year) and plan to apply in the Spring quarter of that year. **Applications are accepted once per year with a May 15 deadline each year.**

While it is recommended that a student apply for the BS/MS Program during the Spring quarter of their 3rd year (typically their Junior year), we recognize students do not always follow a traditional four year schedule. Ideally a student will have 3 undergraduate quarters remaining following the spring quarter of their application, however students may apply as long as they have at minimum one fall quarter left following their spring quarter application. Note: graduating 4th year seniors cannot apply for this program - please plan ahead!

The CS BS/MS Program is ONLY open to current UCSB CS, CE, and CCS Computing majors. To be eligible a student must have completed a minimum of 3 upper-division CS courses when they apply and must have a minimum cumulative GPA of at least a 3.0.

Career Advising

Career Peer Advising

Start here for all of your career planning needs by meeting with a Career Peer Advisor in a 15-minute session. Choose from two methods below.

DROP-IN

Hours:

- Mon-Fri, 9:00 a.m.–4:00 p.m.

Step 1: Enter the queue in QLess

Step 2: Select your preferred medium:

- In-person (Career Resources Room, Building 599)
- Virtual (Zoom)
- Phone (Zoom)

Step 3: Check your phone for updates – when it's your turn, you will receive a text with information to begin your meeting

[Enter QLess](#)

APPOINTMENT

Hours:

- Mon-Fri, 11:00 a.m.–3:00 p.m.

Step 1: Login to Handshake and click the Career Center menu to find the Appointments option (must schedule 24+ hours prior)

Step 2: Choose the Career Peer Advising appointment category, include details about your request in the Help Requested box, and select your preferred medium:

- In-person (Career Resources Room, Building 599)
- Virtual (Zoom)
- Phone (Zoom)

Step 3: Review your confirmation email for instructions to check in to your appointment

[Login to Handshake](#)

Career Path Advising

Dive deeper into your goals in a 30-minute session with a Career Counselor. Gain a referral from Career Peer Advising to utilize this service.

APPOINTMENT

Hours:

- Mon-Fri, 8:30 a.m.–6:00 p.m.

Step 1: Login to Handshake and click the Career Center menu to find the Appointments option (must schedule 24 hours prior)

Step 2: Choose the best appointment category and type, include details about your request in the Help Requested box, and select your preferred medium:

- Virtual (Zoom)

Career Paths

Your Gaucho Paths to Success

Engineering + Technology

Get Your Gears Turning

How many engineering disciplines can you name?

UCSB educates students in five key areas: chemical engineering, mechanical engineering, electrical engineering, computer engineering, and computer science. However, there are over 50 other engineering disciplines to discover including aerospace, automotive, biochemical, civil, environmental, geotechnical, industrial, manufacturing, nanotechnology, nuclear, petroleum, security, telecommunications, and traffic engineering. All areas overlap with basic engineering knowledge and skills.

Learn how you can pursue your discipline or pivot your UCSB education into the area of your choice through a career path in Engineering + Technology.
